Pisa, Italy

EDUCATION

- **Sant'Anna School of Advanced Studies, Pisa - Honours Program** Pisa, Italy
• *MSc in Economics (concurrent with B. degree); CGPA: 4.0 (Italian average grade 30/30)* *Oct. 2024 - present*
 - **Allievo Ordinario:** successfully selected for the honours program through a highly competitive national admission test (5% acceptance rate). Awarded a full scholarship with tailored funding for internships and international study opportunities. Required to maintain high academic performance and attend compulsory, supplementary courses in quantitative and empirical methods. The program uniquely allows Allievi Ordinari to enroll in MSc-level classes while completing the Bachelor's degree.
- **University of Pisa, Pisa** Pisa, Italy
• *Bachelor's degree in Economics and Business; CGPA: 3.9 (Italian average grade 29.85/30)* *Sept. 2024 - present*
 - **Relevant courses:** General Mathematics (30L); Microeconomics (30L); Statistics (30L); Econometrics (30L); Mathematics for Economics (30L); Macroeconomics (30)
- **Liceo Scientifico Leonardo Da Vinci, Florence** Florence, Italy
• *Scientific High School Diploma: 100 cum laude* *Sept. 2019 - June 2024*

DISSERTATIONS AND RESEARCH INTERESTS

- **First Year Dissertation** *Supervisors: Profs. A. Nuvolari*
• *Britain's Leadership in the Industrial Revolution: Chance or Necessity?*
- **Second Year Dissertation** *A. Moneta*
• *SVAR identification via Changes in Volatility: a Perturbation Bound for the Problem of Omitted Variables.*
- **Research Interests**
• *Macroeconometrics, Labour Economics, SVAR econometrics, Economic History*

RESEARCH PROJECTS

- **Research Assistant – "Literacy in industrializing England. New estimates from parish records" (Dec. 2025 - Mar. 2026):** Selected to support the construction of a large dataset based on samples from parish records in England and Wales. The project involved systematically searching parish registers through genealogical sources. It produced estimates of literacy rates in England for the years 1754 and 1800. Presented by supervisors at Oxford University in March 2026.
- **Visiting research student – Département d'Économie, École normale supérieure, Paris, (Oct. 2026 - Dec. 2026):** Hosted by Prof. Gilles Saint-Paul (PSE/ENS). Research focus: labour market institutions and macroeconomic shock transmission. Funded by Scuola Superiore Sant'Anna.

WORK EXPERIENCE

- **JeBE SA** Pisa, Italy
• *Associate Consultant* *Jan. 2025 - present*
 - **Junior Enterprise:** Active member of JeBE, a youth-led consultancy providing advisory services to local businesses in administration, engineering, and law. As an Associate Consultant, worked on the creation of an extensive database of former associates, and contributed to the organization of a successful business game (BG) for domestic and international students. The event was sponsored by Bain & Co., Generali, Eurizon, with Forbes and RAI as media partners.
- **Treccani, Il Chiasmo** Online
• *Editor and Publisher* *Sept. 2025 - present*
 - **Redaction member:** Curated, edited, and published content for a science communication blog associated with the Treccani institute, whose purpose is to render advanced scientific topics understandable and engaging for the general public across different generations

HONOURS COURSEWORK

- **Advanced Calculus II:** Normed Spaces, Differential calculus of vector functions of several variables, Constrained Optimisation, Integral Calculus.
- **Linear Algebra:** Vector spaces, Linear maps, Eigendecomposition, Jordan normal form, Spectral norm, Perron-Frobenius, Riesz representation theorem, Orthonormal matrices.
- **Statistical Learning & Large Data I–II:** PCA, Clustering, Resampling Methods, Classification, Ridge & Lasso regression, Feature Selection, Rebalancing.
- **Applied Statistical Modelling:** GLMs, model selection, simulation-based inference.
- **Macroeconometrics:** VAR models, structural identification, impulse response analysis, cointegration.
- **Time Series Analysis (30L):** ARMA/ARIMA processes, Spectral analysis, Invertibility, ML estimation.

PROGRAMMING SKILLS

- **Proficient:** R (GLM regression, VAR estimation, SVAR identification, Statistical Learning techniques for the handling of large datasets)
- **Comfortable:** Python, LaTeX
- **Basic:** mySQL

LANGUAGES

- **Italian:** Native
- **English:** Fluent (Cambridge CAE, 201)
- **French:** Beginner (A2)
